

Finished Goods Distribution

We offer door-to-door service worldwide. In addition to reliability, visibility, and precision, you will benefit from lower costs for transportation and inventory management.

Choice's finished goods distribution services allow clients to leverage our well placed, flexible DCs and world class inventory management capabilities for global, regional or in-country fulfillment.

Global Capabilities.

With more than 400 strategic stocking locations, more than 100 IOR ports of entry, and 10 strategically located distribution centers, we can tailor a finished goods distribution solution to the needs of your business.
