

# Global Trade

**We facilitate global trade and IOR/EOR services with local experts and unparalleled infrastructure allowing companies to easily enter and expand into new markets through a single interface.**

Whether your business involves regulated products or complex compliance obligations, Choice will assist you with all import, export and customs clearance requirements allowing your business to scale, minimize resource requirements, and eliminate your exposure.

# Efficient, Ethical, Turnkey Trade Compliance.

We combine expertise in global logistics and trade management to enhance and provide exceptional value to international supply chains. Our clients are able to expand their footprint into a country without establishing a permanent presence while maintaining limited resources to manage and oversee compliant import and export delivery operations in a foreign jurisdiction.

From consultation to comprehensive turnkey services, Choice Logistics possesses the expertise to help you navigate unique, country-specific import/export requirements and regulations. Our solutions include:

- Customized Import/Export Documentation
- Commercial Invoice Preparation
- License/Permit Application and Maintenance
- Dual-Use/Strategic Commodities
- Exports for Repair/Refurbishment and Return
- Fiscal Representation
- Landed Cost Analysis
- Compliance Planning
- Tariff Mapping and Classification
- Customized Denied Party Screening

Choice's global trade solutions compress time-to-market, provide differentiation and remove costs.
