

CHOICELOGISTICS
ONE WORLD • ONE CHOICE

Third Party Logistics

Choice is the largest, independent provider of end-to-end supply-chain solutions for global companies requiring on-demand management of mission critical services.

OPTIMIZE YOUR SUPPLY CHAIN TODAY

For more than 50 years Choice has been working with leading companies to improve supply-chain performance. We develop custom end-to-end solutions that address your unique pain points, create a platform for growth, and offer real-time visibility so you can better manage your business. Basic services include warehouse, inventory, and transportation management. Fortune 500 corporations and leading companies turn to Choice to:

- Improve on-time performance
- Lower total cost of service
- Scale your operations
- Reduce time to market
- Improve decision making

SERVICE PARTS LOGISTICS

Choice was one of the first companies in the world to help global corporations outsource their after-market logistics processes. Since the dawn of the high-tech era, Choice has led the SPL industry and is credited with numerous innovations that optimize transportation efficiency while reducing spend. With over 400 forward stocking locations (FSL), distribution centers (DC), and transportation hubs in more than 80 countries, Choice has a SPL solution for your specific needs. Services include scheduled and time-definite options:

- Same Day (> 1 hour)
- Next Day (early AM)
- Deferred (TL/LTL, FCL/LCL, etc.)

REVERSE LOGISTICS

Service doesn't end with the delivery of your product. Whether the customer or field service technician holds the replaced part or product, both require a well defined returns management process to speed recovery, control costs, and strengthen customer relationships. Choice services include:

- Return Material Authorization (RMA) management
- Warranty tracking
- Returns routing
- Tracking by engineer, customer, or repair vendor
- Defective inventory consolidation

PROJECT-BASED LOGISTICS

When your logistics needs don't fit neatly into a little box, call Choice. We thrive on developing unique solutions with a short turnaround time. With access to hundreds of service providers covering 99% of global trade, we can develop a custom solution to address your specific needs. Whether it is parcel or heavyweight, one-off or daily, across town or on the other side of the world, call Choice.

One World. One Choice.

WHY CHOICE

Only with Choice can you get a customized enterprise-grade logistics solution that exactly fits your needs. Whether you represent a large corporation, fast growing company, or Value-Added Reseller (VAR), Choice can help you achieve your desired business outcome. With premium end-to-end storage, handling, and delivery capabilities throughout the world, you will:

- Reduce cost with improved planning
- Enhance service through exception management
- Increase productivity through process automation
- Improve performance through real-time visibility
- Quicker decisions through advanced analytics

PERFORMANCE GAINS

Stop looking around for short-term fixes and begin capitalizing on all the benefits of a global leader in the 3PL industry. Many of our clients realize a 15%-20% gain in performance in the first 12 months. It's an easy decision.

GET STARTED NOW

It's never been easier to improve supply-chain performance. Let our Enterprise Solutions Group conduct a free diagnostic to benchmark your current performance, discuss potential improvements, and determine an expected return-on-investment. Call Choice and turn your supply-chain into a competitive advantage.

Learn why industry leaders trust Choice Logistics for enterprise-grade supply-chain solutions that compress time-to-market, provide differentiation, and remove costs.
